Level-1 Data Flow Diagram (DFD)

Project: Internal Job Mobility Assistant

The Level-1 DFD below decomposes the Internal Job Mobility Assistant into its constituent processes, showing how data flows between the two external entities (Employee and HR Partner), the five core processes, and the three data stores that support resume handling, job matching, and career path generation.

Level-1 Data Flow Diagram: Internal Job Mobility Assistant

DFD Symbol Legend

Symbol	Meaning
Oval	External Entity — a person or system outside the software boundary that interacts with it (e.g., Employee, HR Partner).
Rectangle (numbered header)	Process — a numbered activity that transforms or acts on data (e.g., 1. Resume Upload & Validation).
Open-ended Rectangle	Data Store — a repository where data is held for later use (e.g., D1 Employee Database).
Arrow	Data Flow — the direction in which data moves between entities, processes, and data stores.

Data Flow Description Table

#	Data Flow Description
1	Employee -> Process 1 (Resume Upload & Validation): Resume & profile details
2	Process 1 -> D1 (Employee Database): Validated resume data
3	D1 (Employee Database) -> Process 2 (AI Job Matching Engine): Employee skills
4	D2 (Job Database) -> Process 2 (AI Job Matching Engine): Available jobs
5	Process 2 (AI Job Matching Engine) -> Employee: Matching results
6	Employee -> Process 3 (Resume Analysis): Resume document
7	Process 3 (Resume Analysis) -> D1 (Employee Database): Extracted skills & qualifications
8	Employee -> Process 4 (Career Path Generation): Profile & preferences
9	D3 (Career History Database) -> Process 4 (Career Path Generation): Career history
10	Process 4 (Career Path Generation) -> Employee: Career path & skill-gap recommendations
11	Employee -> Process 5 (Internal Job Application Processing): Job application
12	Process 5 (Internal Job Application Processing) -> HR Partner: Forwarded application
13	HR Partner -> D2 (Job Database): Job postings
14	HR Partner -> Process 5 (Internal Job Application Processing): Application review decision
